

# BLACKOUT STICK-ON BLINDS

Our Blackout Stick-on Blinds are made from 100% blackout (opaque) UV protection coated material, meaning they blackout light and heat to create the perfect sleeping and relaxing environment.

You simply DIY cut (with household scissors) our material to fit any window size. The blinds are then easily applied to the window using our Hook & Loop pads, which provide a firm and secure attachment and allow for reusability.

Our Blackout Stick-on Blinds are ideal for baby rooms, nurseries and bedrooms. Our blinds are useful for any window in your house where you want to either blackout or temperature control the room. Due to their reusability, they are a perfect (and lightweight) product to use on your holidays for hotel rooms or any road trips you are taking. Making our product perfect for home or travel use.

## THE SELLING POINTS

- **CUT TO SIZE:** Blind measures 140cm x 1m, 2m or 3m and can be cut to your requirements (easily DIY cut with household scissors), meaning any window can be blackout protected! The versatile cut-to-size design provides a smart finish to match any window shape.
- **FAST AND EASY TO INSTALL:** No nails or drill required! Adhesive White Hook & Loop means blinds can be attached simply and quickly to window frames.
- **100% BLACKOUT:** Blackout Stick-on Blinds block sunlight, enabling a good night's sleep. Blackout aids in regulating room temperature so is ideal to use in children's rooms, one south-facing windows, in heatwaves, or in warmer climates.
- **PORTABLE:** Have a restful night's sleep no matter where you travel! The lightweight design allows for the blind to be quickly taken down, transported, and reused elsewhere. The Hook & Loop is subtle when applied to window frames and can remain attached if you wish to move the blind around the home.
